

The Parish Leadership Team was established at the beginning of 2020 with the objective of assisting Canon David in the day-to-day running of parish activity, as well as planning for the long-term vision of the parish.

It originally met every two weeks, but since lockdown it has been meeting every Friday morning via Zoom. Now each member of the leadership team has been allocated various groups and activities in the parish, not to oversee or interfere, but rather to be a point of contact and good communication. Below are pictures of the parishioners who are on the leadership team. That ministry is one of service. They have certainly been of service to me and I am sure will be to our parish community.
